

STANDARD FORM NO. 64

Sanitized - Approved For Release : CIA-RDP33-02415A000500050035-2

*Office Memorandum* • UNITED STATES GOVERNMENT

FOIAb3b

TO :

DATE: 11 March 1959

FROM :

FOIAb3b

SUBJECT: Transport of Household Effects

1. The Project has no normal supply channel other than that provided by MATS. I feel that we would be remiss in our end of the understanding with the Air Force to ship these items under the guise of Classified materials. Should one of the articles in question be dropped and damaged sufficiently, the whole plot would be exposed, thus, our position would be open to ridicule. This may well jeopardize the present priorities for shipment which we now enjoy. I don't feel that we can afford this gamble.

2. I must agree with the Base Transportation Officer - all personal effects should clear thru customs to preclude exposing our operation as anything other than normal.
